DETAILED ACTION

Non-Final Rejection

Election/Restriction

1. Applicant's election with traverse of Invention I, Species A, Fig 1A claims 1-2, 4-9, 11-13 is acknowledged. The traversal is on the ground(s) that search for the additional inventions and/or Species would not create an undue burden upon the Examiner. This is not found persuasive because search for the additional inventions and/or Species would create an undue burden upon the Examiner.

Claims 3, 10, 14-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected inventions and/or species, there being no allowable generic or linking claim.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2, 4-9, 11-13, as best understood, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-2, 4-9, 11-13 are confusing and are not clear because claimed limitations, (claim 1, 8, a core; claim 6, 13, fiber reinforcing fibers), are not shown in the figures and/or lacks support in the specification and therefore fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These limitations must be shown or the feature(s) canceled from the claim(s). Applicant is requested to go through the application and ensure that the claimed matter has been described in the specification and shown in the drawing in such a way as to convey to one skilled in the art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2, 4-9, 11-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Preisler et al. (6,475,937).

Regarding claims 1-2, 4-9, 11-13, as best understood, Preisler et al. (6,475,937) discloses in Fig. 1-10 the invention as claimed to include a headliner core having an exterior surface Fig 7-8 with at least one urethane integrally-molded energy distribution zone 92 is embossed from the exterior surface with sinusoidal cross-sectional shape.

Conclusion

3. The prior art made of record in attached Notice of Reference Cited (PTO-892) and not relied upon is considered pertinent to applicant's disclosure. This art of record shows various features similar to the applicant's invention.
